## WILSON LOSING IN NORTHWEST

La Follette Thinks that Reactionary Republican Will Be Beaten.

### PROGRESSIVES NOT DEAD

Senator Says President Might Win Should Times Improve—Has Compromised Entirely Too Much.

Senator La Follette, of Wisconsin, who returned yesterday from a trip throughout the Middle West and several North-west States, expressed the opinion that President Wilson had lost some ground politically. But he intimated that the President would get it back before the next election. He also warned the Republicans against the program for a reactionary candidate and platform, and under way and hinted at a third party movement, if the reactionary program is persisted in.

Senator La Follette said that he had not entered into a deal with President Wilson by which he was to receive a Democratic endorsement and declared that he did not need the President's support in his fight. The Senator intimated that he was ready for the fray whenever it started.

Has Compromised Too Much.

"It doesn't mean that President Wilson will not be strong again a year from now next fall," he said. "Nobody can tell about that. Prosperous times would work a great change, probably. Remember what it did for Taft? He didn't think he'd get a vote in Wisconsin some months prior to the election, but along came a period of better times and he got several."

"President Wilson's effort to undo the work done for twenty-five or thirty years in behalf of special business interests naturally has resulted in bad times. It is a terrific job that has to be done, and the man that accomplishes it ought hardly to expect to serve more than one term."

"The trouble with President Wilson in this connection is that he has shown a disposition to compromise to try to help business. However, he has done a great deal more already than either Taft or Roosevelt."

Progressivism Is Not Dead.

Politicians who think Progressivism is dead are mistaken, said the Wisconsin Senator. There is as much Progressivism as there ever was," he said, "and they'll find it out if they carry through their program of nominating the worst hardshell republican they can find. The result will be as wide a division as there was last time—either before or after the nomination was made."

TO PREVENT MORE DUMPING.

Anacostia People Say Material Not Needed—Dump Is Nuisance.

The Anacostia Citizens' Association will request the United States Engineers' office to prevent further dumping in that portion of the flats reclamation work just east and west of the approach to the bridge, because the material is no longer needed, and the presence of the dump now is a nuisance.

Next Wednesday night the adult Bible class of the Anacostia Methodist Episcopal Church will hold a banquet in the church hall. Rev. G. Leroy White, pastor, is president of the class and will be toastmaster on this occasion.

U. S. MARKETING BOARD URGED.

President Wilson Said to Be Interested in New Project.

Establishment of a national commission on marketing is being urged by officials of the Department of Agriculture, and it is said President Wilson is interested.

The commission would devise a better distribution of agricultural products, investigate warehouse conditions, and work out the big national problems of food supply and demand.

The President has been asked to appoint an advisory board to study conditions and recommend legislation.

### WANT FOREIGN SALES AGENCY.

Trade Body Believes System Should Be Used in Outside Market.

The members of the Federal Trade Commission yesterday assured a committee of the Chamber of Commerce of the United States that they would appreciate the cooperation of the committee in the work of the commission.

The chief matter discussed was co-operative selling agencies for trade in foreign countries. A common selling agency is advocated as a necessity in the foreign market in order to meet the competition of so-called foreign cartels, and, although it is admitted that our exports are large, it is urged that American manufacturers should be placed upon an equal basis with foreign competitors in the future.

### Give Permission for Bond Issue.

Permission was granted the Potomac Electric Power Company by the Public Utilities Commission yesterday to issue general improvement 6 per cent debenture bonds to the amount of \$3,500, necessary, according to the commission's order, for certain improvements, additions and betterments to the road.
